

## **Labexchange Best Price Guarantee**

The Labexchange Best Price Guarantee guarantees the seller - hereinafter called contractual partner - the purchase of laboratory and analytical equipment by Labexchange – Die Laborgerätebörse GmbH - hereinafter called Labexchange - to the best possible price on the market. It is guaranteed to the contractual partner, that Labexchange submits a higher offer for the purchase of a laboratory or analytical device than any other used equipment dealer, known to Labexchange.

If there is a purchase intention from side of Labexchange and if the contractual partner has a purchase offer of a used equipment dealer, he has to pass this offer immediately – at the latest within a period of 10 working days – to Labexchange and has to request a purchase offer. Furthermore the contractual partner has to deliver all necessary data and information regarding the offered device. Has Labexchange already created a calculation of the current market value for the device offered by the contractual partner, and does the contractual partner present a higher purchase offer of a used equipment dealer, known to Labexchange, so we guarantee a value up to a maximum of 20 % higher than at our calculation of the current market value.

For all offers submitted by Labexchange the general terms and conditions of purchase (version 01/2011) of Labexchange – Die Laborgerätebörse GmbH are valid.
